

Using THE POWER OF MICROBES

**ENVIRONOC 201** Liquid Inoculant- Specialized Degradation of Terpenes, Chlorinated Hydrocarbons, Pesticides, Herbicides, Phenols, Cresols, and related compounds

- 33 Strains of Fresh, Viable, and Natural Microbes selected for their capabilities to handle complex organic degradation- Terpenes, Chlorinated Compounds, Many Pesticides, Herbicides
- Highest Plate Counts- Trillions of viable microbial cells per gallon delivered straight from Biodyne-Midwest to your location.

**Capabilities:** Isoprenoid, linear and cyclic terpene degradation, Chlorinated hydrocarbon degradation, Removal of many pesticides and herbicides, Degradation of phenols and related compounds

**Applications:** Wastewater treatment at citrus processors, chemical manufacturers, clothing manufacturers and pesticide and herbicide manufacturers, Agricultural residuals of certain pesticides and herbicides, Equipment washing at golf courses and similar operations that utilize pesticides and herbicides

### Who is Biodyne-Midwest?

- Located in Indiana, Biodyne-Midwest is the exclusive partner of Biodyne Inc. We are an innovative Environmental Biotechnology firm, intent on harnessing the power of naturally occurring microbes for environmental applications
- Biodyne-Midwest cultivates and distributes the highest quality liquid microbial inoculant to customers throughout the USA
- ENVIRONOC microbes are comprised of 100% naturally occurring (non-pathogenic or genetically modified) bacteria / fungi that have been selected for their special degradation or biostimulation abilities
